We're so glad to have some news from the Solicitor's Office that we hereby award them the honor of appearing first in this week's issue. MRS. WILLIAM McDONALD, formerly of the Rural Utilities Loans Division, Solicitor's office, and ART MITTELL'S secretary, is seeing double these days. Twin girls is the reason. CLARA, as she was known by us, is living in Detroit, Mich. PEARL SHAULIS, also of the Rural Utilities Loans Division, is moving to the Office of the Budget. PEARL has been MR. SPELMAN'S Girl Friday and Friday will be her last day with us.

TELEPHONE ENGINEERING: That big noise is PAUL EMMONS rejoicing over the arrival of Joseph Bernard Emmons on August 23rd. EDWIN SANDFORD transfers his allegiance to the State of Missouri. SHADES OF VALENTINO! Didja see FRANK LUFF'S mustachio?

ATTENTION - GIRLS IN THE TELEPHONE PROGRAM! WHO WILL BE MISS TELEPHONE?

NORTH CENTRAL AREA: Nice to have LILA DURHAM back after a long illness. CARL PULIEN and SAM GELLIS took leave recently to get shot and hung, respectively. CARL gets hay fever shots and SAM, because of a back injury, receives traction treatments via noose, ropes, and pulleys. HAROLD WHITTLE will not apply for membership in the Hod Carriers' Association. Slipped a disc in his back on this job - why not have this work done by force account? Force somebody else to do it on account of the hard work involved.

WESTERN AREA: Operations Section 9 extends a belated welcome to ETHEL NOBLE, Fred Hamlin's new secretary. MRS. BERNIE KRUG broke her thumb in a friend's car door. Thumb back luck, eh? FRANK SPEH has some real crazy pictures taken the night of the Hallowe'en party. IRWIN CZESKIEBA (ZEKE) is the proud owner of five new Scotties. ELIZABETH EBELHAR joined the American Legion while in France and has been seen sporting her French cap around the building. CHRIS BENSON is sure livin' it up with his new fire engine red Pontiac and renewing old acquaintances with the Legionnaires from North Dakota. ROLAND BLASS still trying desperately to buy a house, but reports that final negotiations are almost complete and he will soon be able to assume his regular duties of loan appraisals. SYLVIA MACKAY marched with the Drum & Bugle Corps from Oklahoma.

NORTHEAST AREA: A hearty welcome home to HAROLD SARLE who has been away too long. TOM GRAHAM'S boy called for his Pop on Tuesday with two paper bags of eats - to be eaten during parade reviewing. ED WARNER has terrific decisions to make since taking over as Head of the Engineering Section - whether to fish or golf on these nice week-ends. LIL AZEMA and Yours Truly will do the rowing for fishing parties, providing the participants have plenty of annual leave to cover the trip and don't care when they get back.--(UNITED STATES ONLY!)

TELE. OPER. & LOANS: AL O'DONNELL fell in love with CHARLEY JACKSON'S "Pent-Tent", bought himself one, and is now trying it out up New England way. JEAN MUNDALE attended a wedding in New Hampshire. JEAN reports missing the bouquet but has other plans which may lead to the same end. FLASH! LITERALLY FLASH! That blinding light that comes from EMAJEAN DONELSON'S beautiful diamond announces the fact that she will become MRS. JACK McKEEHAN on October 2nd. BILL RIIEY driving a new Dodge. If the cute blonde riding on the Indiana float during the Legion parade looked familiar, she is PEGGY DIXON of our Northeast Section. We don't like to intimate that it's a long time between movies for the O'HARAS, but after viewing one of the recent Cinemascope wonders, Mrs. HUGH O'HARA remarked that 'there had been a lot of changes since the days of the piano'. FRAN PAGE sent a small-sized billboard from LAKE GEORGE, making us all envious.

WHO WILL BE "MISS TELEPHONE?"

FOR SALE: Realist 3D camera in good condition. Equipped with carrying case, flash gun, and custom-made gadget bag. Call H. Reising, X-4512.

There is certainly no need for anyone to be without the education they desire: Read about the opportunities.

The GRADUATE SCHOOL is offering the following courses in engineering during the Fall Semester:

"Engineering Review for P.E. Examination" (non-credit) - Dell Aria
"Practical Electronics (First Half)" (3) - Hauptman
"Principles and Practices of Refrigeration" (2) - Garver & James
"Principles of Specifications" (2) - Rosenzweig
"Statistical Methods in Engineering (First Half)" (2) - Pabst
"Applied Electronic Theory (First Half)" (2) - Price
"Fundamentals of Telephony I" (2) - McDonough
"Distribution Line Design" (2) - Jessel & Thomas

SPAN is publishing this information because REA, through the efforts of JOE SCHAEENZER and others, was instrumental in having some of these courses offered. Registration for the Fall Semester takes place September 11 through 18.

-oooOooo-

And the following: At George Washington University, beginning this Fall, engineers and scientists who have been placed into management and administrative positions will be able to study the best in administrative principles and practices in the new program of engineering administration offered for the first time in the Washington area. This program, developed from University recognition of the changing character of the responsibility of engineers and scientists for the work which they produce. The new program, which leads to the Master of Engineering Administration degree, is planned primarily for scientists and engineers who are already trained in technical fields, but who need additional training and knowledge in the management and supervision of scientific projects and activities.

-oooOooo-

And, then, for those who are unable to take advantage of either of these fine opportunities, there is always ICS - International Correspondence School - another splendid method for further education. This is a home-study program which can be done in your spare time and at your own convenience.
